DEEP HYDRATING LOTION 100G/3.53 OZ.

POST TREATMENT CARE

Our lotion is designed to keep the skin moist and reduce the signs of aging along with excessive dryness; skin will appear firm and tight. Your skin will regain a youthful look after using the lotion every day. **Specially designed for face-body post care procedure.**

Applications at home frequency/duration

Once a day, for 28 consecutive days (from D0 to D27)

KEY BENEFITS

- Moisturizes skin
- Firms and tightens skin
- Protects with antioxidant
- Suitable for aging skin
- Suitable for daily use

PROVEN EFFICACY*

100%* of women

- Witnessed soft, intensely moisturised and nourished skin
- Signs of aging reduced while skin is regenerated and looking younger
- Leaves skin firm & elastic

PROFESSIONAL ADVICE FOR APPLICATION

Add a dollop to your hand (more if your skin is particularly dry or on rougher areas such as elbows and knees). Rub your palms together to warm up the lotion. Use your hands to massage the lotion into your face and body in small circular motions. Repeat until you have covered your entire treated area.

*Clinical studies under conditions adopted: repeated applications under the normal conditions of use at home, once a day for 28 consecutive days, by a panel of 33 female subjects, between 40 and 65 years old, with dry skin on body.

PRE & POST TREATMENT CARE

Our facial cream is rich in active ingredients, designed to activate skin cells activity, plumps the tissues under the fine lines and wrinkles, gets skin firm and glowing. The exclusive formulation protects the skin cells from the damage of aging and photoaging.

Applications at home frequency/duration

Once a day, for 28 consecutive days (from D0 to D27)

KEY BENEFITS

- Great moisturizer for the skin
- Reduce fine lines & wrinkles
- Protect with antioxidant
- Provide skin radiance and glow
- Suitable for aging skin
- Suitable for daily use

PROVEN EFFICACY*

100%* of women

- Witnessed soft, intensely moisturised and nourished skin

94%* of women

- Skin is soft and regenerated

91%* of women

- Reduced visibility of wrinkles, fine lines and expression wrinkles, while showing more plumped and younger skin

PROFESSIONAL ADVICE FOR APPLICATION

Always apply the cream to a clean and toned face. Apply your face cream on damp skin. Instead of taking a finger full of it, apply small spots all over your face and then smoothen it out. This way you will be able to apply the cream on every bit of your face.

*Clinical studies under conditions adopted: repeated applications under the normal conditions of use at home, once a day for 28 consecutive days, by a panel of 33 female subjects, between 41 and 65 years old, with wrinkles and fine lines on face and with dull complexion.
